Research Triangle Park Future Development Scenarios & Infrastructure Capacity Study

Key Dates

- Date issued: June 23, 2025
- **Addendum #1 issued: July 2, 2025**
- Questions from potential respondents due: July 11, 2025
- Answers to questions posted at rtp.org/bid-opportunities by: July 16, 2025
- **Responses due: July 25, 2025, at 3:00 pm ET**

Addendum #1: Scenario Development Scope Clarification

Based upon initial inquiries received since issuing this RFQ, the Research Triangle Foundation is issuing this addendum #1 to clarify the scope related to the future development scenarios included as Task 1 in this RFQ.

The scenario development task is not a design- or architectural-based task. The intended scope of the scenario development is exclusively for the necessary data required to complete Tasks 3-5. RTF therefore expects that the scenario development task is limited to necessary numerical inputs (e.g., number of residential units, residential densities per acre, building square footages by use, etc.) required to develop the infrastructure projections. RTF is not soliciting responses to this RFQ that include design-related components.
